Client/ Project Details

Company: Coforge Ltd | **Client:** Lincoln Financial Group

Duration: 08/2021 to 01/2025

Technologies: HTML5, CSS3, JavaScript, Angular 8 and Later version, React JS

Roles & Responsibilities:

- **Front-end Development:** Expert in building dynamic and responsive user interfaces using HTML5, CSS3, JavaScript, Angular 8+ and React JS.
- **Requirement Analysis:** Collaborate with stakeholders together and define user requirements, ensuring alignment with business goals.
- **Feature Implementation:** Develop and implement high-quality features, adhering to best coding practices and established coding standards.
- **Testing & Code Coverage:** Conduct comprehensive integration testing and ensure code coverage meets the required benchmarks for reliability and performance.
- **Cross-functional Collaboration:** Work closely with the Product Owner and other stakeholders to translate business requirements into technical solutions.
- **Code Review & Optimization:** Perform regular code reviews, focusing on code quality, performance optimization, and maintaining best practices across the team.
- **Team Mentorship:** Provide guidance and mentorship to junior developers, fostering a collaborative and growth-oriented development environment.

Company: T-Chowk Labs Pvt Ltd | **Client:** School Mitra

Duration: 08/2017 to 07/2021

Technologies: HTML5, CSS3, JavaScript, Angular8+, Bootstrap4+

Roles & Responsibilities:

- **Code Implementation & Maintenance:** Efficiently implement and maintain high-quality, scalable code for new and existing features.
- **Reusable Code Development:** Design and develop modular and reusable code components to improve development efficiency and future scalability.
- **Input Validation:** Ensure robust user input validation and error handling before sending data to the backend, improving application reliability.
- **Responsive Testing:** Thoroughly test applications across multiple screen resolutions and devices to guarantee a seamless user experience.

Company: Capgemini India | **Client:** LITEUI

Duration: 01/2017 to 08/2017

Technologies: HTML5, CSS3, JavaScript, jQuery, Bootstrap4+

Roles & Responsibilities:

- **Code Implementation & Maintenance:** Develop and maintain high-quality code in line with project specifications.
- **Team Collaboration:** Work closely with cross-functional teams and stakeholders to ensure the successful delivery of project goals.
- **Design Consistency:** Ensure that all user interface components align with design standards and follow development best practices.

Company: Learning Mate Solution Pvt Ltd | **Client:** Frost

Duration: 01/2016 to 08/2016

Technologies: HTML5, CSS3, JavaScript, jQuery, Bootstrap

Roles & Responsibilities:

- **Code Implementation & Maintenance:** Develop and maintain robust code for web applications, following best practices.
- **Team Collaboration:** Collaborate with team members to deliver high-quality software solutions within project timelines.
- **Design Consistency:** Ensure all developed features align with design standards and adhere to development guidelines.

Company: Rangam Infotech Pvt Ltd | **Client:** In-House Product

Duration: 08/2013 to 01/2016

Technologies: ActionScript3.0

Roles & Responsibilities:

- **Mobile Application Development:** Develop a mobile application designed for diagnosing autistic behavior using ActionScript 3.0.
- **Team Collaboration:** Work closely with team members and stakeholders to meet project requirements.
- **Design Consistency:** Ensure the application design adheres to development standards and user interface consistency.

Professional Awards / Achievements

- **Multiple Star of the Month & Inspire awards for contributions in Lincoln Financial Group.**

Educational Qualifications

- B. Tech (Computer Science) from Bharti Vidyapeeth College of Engineering, Pune–2012.

Declaration

I hereby declare that the above written particulars are true to the best of my knowledge and belief.
